Fund Overview

Investment Objective

The investment objective of this Fund is to achieve long-term capital growth by investing primarily in a diversified portfolio of domestic and foreign equity securities, Canadian preferred share securities, and to a lesser extent, fixed income and money market instruments and/or cash equivalents through a sustainable investment approach. Such investments may be made by the Fund either directly or indirectly through investments in other mutual funds, including ETFs.

Strategy

The manager employs a dynamic asset allocation approach blending top-down and bottom-up assessments seeks to exploit market opportunities through tactical shifts. We believe an optimal risk adjusted and actively managed asset allocation strategy will provide strong returns with efficient diversification and incremental value is added through measured adjustments to asset allocation, driven from changing outlooks for asset class returns and valuations based on quantitative and qualitative factors.
