

Annual Management Report of Fund Performance

ADDENDA GLOBAL DIVERSIFIED EQUITY FUND

December 31, 2025

This annual management report of fund performance contains financial highlights but does not contain the complete annual financial statements of the investment fund. You can get a copy of the annual financial statements of the fund, at your request, and at no cost, by calling toll-free 1 866 908-3488, by writing to us at 800 René-Lévesque Blvd. West, Suite 2800, Montréal, Québec H3B 1X9, by visiting our website at addendacapital.com, by visiting SEDAR+ at sedarplus.ca or by contacting your advisor. You may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

Notes on Forward-looking Statements

This report may contain forward-looking statements concerning the Fund, its future performance, its strategies or prospects or about future events or circumstances. Such forward-looking statements include, among others, statements with respect to our beliefs, plans, expectations, estimates and intentions. The use of the expressions “foresee”, “intend”, “anticipate”, “estimate”, “assume”, “believe” and “expect” and other similar terms and expressions indicate forward-looking statements. By their very nature, forward-looking statements imply the use of assumptions and necessarily involve inherent risks and uncertainties. Consequently, there is a significant risk that the explicit or implicit forecasts contained in these forward-looking statements might not materialize or that they may not prove to be accurate in the future. A number of factors could cause future results, conditions or events to differ materially from the objectives, expectations, estimates or intentions expressed in such forward-looking statements. Such differences might be caused by several factors, including changes in Canadian and worldwide economic and financial conditions (in particular interest and exchange rates and the prices of other financial instruments), market trends, new regulatory provisions, competition, changes in technology and the potential impact of conflicts and other international events. The foregoing list of factors is not exhaustive. Before making any investment decision, investors and others relying on our forward-looking statements should carefully consider the foregoing factors and other factors. We caution readers not to rely unduly on these forward-looking statements. We assume no obligation to update forward-looking statements in the light of new information, future events or other circumstances unless applicable legislation so provides.

Addenda Global Diversified Equity Fund

Management Discussion of Fund Performance

Investment Objective and Strategies

The Addenda Global Diversified Equity Fund's (the "Fund") investment objective is to achieve long-term capital growth by investing primarily in a diversified portfolio of domestic and foreign equity securities, Canadian preferred share securities, and to a lesser extent, fixed income and money market instruments and/or cash equivalents through a sustainable investment approach. Such investments may be made by the Fund either directly or indirectly through investments in other mutual funds, including ETFs.

To achieve the Fund's investment objective, the Manager uses strategic asset allocation as the principal investment strategy. The Fund has a target weighting of 0-20% in Fixed Income and Money Market, and a target weighting of 80-100% in Equity.

In addition, when selecting the majority of securities in which the Fund invests, the Manager will integrate environmental, social and governance (ESG) matters along with active stewardship, which covers engagement with issuers and proxy voting.

Risk

There were no significant changes to the investment objectives or strategies that affected the Fund's overall level of risk during the period. There were no changes to the Fund's risk rating during the reporting period. This Fund remains suitable for investors who are seeking long-term growth and who have a low to medium tolerance for risk.

Results of Operations

The Addenda Global Diversified Equity Fund (Series A) returned 12.48% for the year ending December 31, 2025 while the benchmark index composed of 40% S&P/TSX Composite Index, 30% S&P 500 (CAD) and 30% MSCI EAFE Net (CAD), posted an 24.25% return. The Fund underperformed the benchmark primarily due to security selection within our equity strategies, which caused performance to lag versus their respective equity benchmarks. As well, a defensive asset mix shift in March hurt as markets rebounded strongly in Q2 after uncertainty declined surrounding tariff threats by the U.S. Administration in April. A modest allocation to cash and an underweight exposure to International equities was a drag on overall performance throughout the year.

Unlike the benchmark, the Fund's performance is calculated after fees and expenses. Please refer to the "Past Performance" section for the returns by series, which may vary because of differences in management fees and expenses.

The U.S. Equity allocation underperformed during the year driven by security selection. Health Care, Financials and Information Technology (Adobe) were the largest detractors from relative performance. This was partially offset by a positive contribution from Communication Services (Alphabet), which had a very strong performance in 2025, closing the year +65% in local currency. Sector allocation had a very modest positive impact on performance overall.

The Climate Transition International Equity allocation underperformed during the year, driven by security selection. Holdings within Industrials (Data & Analytics) and Materials (Ingredients; Industrial gases) were the largest detractors from relative performance. Health Care positively contributed, with two of the top relative contributors in this sector. From a sector allocation perspective, the underweight in Financials had the largest impact, given its strong performance in 2025.

The Canadian Climate Transition equity allocation underperformed during the year. While value was added from the Communications sector (Quebecor Inc +70%) and by being underweight to the Utilities sector, this was more than offset by material negative contribution from stock selection in the Materials and Information Technology sectors. Agnico Eagle (+110%) and Franco-Nevada Corp were strong performers but lagged behind other Gold stocks. Not owning Celestica Inc (+206%) detracted as did owning several software companies, which were sold off due to the AI threat.

Recent Developments

Labour market dynamics in Canada surprised investors by proving more resilient than anticipated, showing strong job creation in Q4. Together with wage growth running above 3%, the Bank of Canada ("BoC") was forced to acknowledge that policy rates were likely at or through the neutral level. The BoC and U.S. Federal Reserve ("Fed") both cut their respective policy rates by 25 bps at their October meetings, but the BoC elected a pause while the Fed instituted an additional 25 bps cut in December. Strong earnings reported during the quarter and accommodative policy from Central Banks helped to maintain the risk on tone and positively supported equity market returns.

The MSCI EAFE Index returned 25.1% in 2025 (CAD). This performance was driven by Financials (+45.6%), Utilities (+39.6%) and Industrials (+30.8%). It was mainly supported by banks and defense stocks, which reacted positively from interest rate cuts and geopolitical tensions. No sector had a negative return in 2025.

The S&P500 Index returned 12.4% in 2025 (CAD), driven by the performance in Communication Services (+27.3%), Information Technology (+18.2%) and Industrials (+13.8%). Alphabet was the main contributor in Communication Services and the IT sector remained driven by the AI theme.

The S&P/TSX Composite Index returned an impressive +31.7% total return in 2025, driven by a strong rally in the Materials sector, Gold & Precious Metals stocks specifically, and the Financials sector, with Banks posting strong returns.

Related Party Transactions

Addenda Capital Inc. ("Addenda") is the Manager and Portfolio Manager of the Fund. Addenda is controlled by Co-operators Financial Services Limited ("CFSL"), a wholly-owned subsidiary of Co-operators Group Limited. Addenda pays the "Operating Expenses" (defined below) of the Fund other than its "Fund Expenses" (defined below), in exchange for the Fund's payment to the Manager of annual fixed-rate administration fees with respect to each series of the Fund.

Addenda Global Diversified Equity Fund

The administration fees are equal to a percentage of the net asset value of each series of the Fund calculated and paid in the same manner as the Fund's management fees. The Operating Expenses include, but are not limited to: audit and legal fees; transfer agency and recordkeeping costs; accounting and valuation fees; safekeeping and custodial costs; trustee services costs; and the costs of preparing and distributing financial reports, prospectuses, annual information forms, fund facts, continuous disclosure materials and other investors communication.

In addition to administration fees, the Fund shall also pay certain Fund Expenses, namely: taxes (including, without limitation, GST and PST or HST, capital taxes, income taxes and withholding taxes); bank charges, borrowing and interests; termination fees; regulatory filing fees; costs related to the Independent Review Committee ("IRC"); Operating Expenses incurred outside of the normal course of business of the Fund; costs of compliance with newly adopted securities regulations; and costs associated with portfolio transactions, brokerage fees and other trading expenses.

The Fund also pays annual management fees to Addenda as consideration for its services.

For more details on the Fund's fees and expenses, please refer to the "Fees and Expenses" section in the Simplified Prospectus.

Addenda has established the IRC for the Fund in accordance with the requirements of *National Instrument 81-107 - Independent Review Committee for Investment Funds* in order to review conflicts of interest as they relate to investment fund management. The Fund did not rely on an approval, positive recommendation or standing instruction from the Fund's IRC with respect to any related party transactions in the period.

As at December 31, 2025, CFSL held 10,880,749 Fund securities for a value of \$107,700,585, which represented 98.62% of the net asset value of the Fund at that date.

As a result, the Fund may be subject to large investor risk as discussed in the Simplified Prospectus. Addenda manages this risk to reduce the possibility of any adverse effect on the Fund or on its investors, through such processes as requiring advance notice of large redemptions and large transaction fee.

Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the accounting periods shown.

Net Assets per Unit⁽¹⁾

Series A	December 31 2025 \$	December 31 2024 \$	December 31 2023 \$	December 31 2022* \$
Net Assets, beginning of period	11.84	10.11	9.05	—
Increase (decrease) from operations:

*For the period from March 28, 2022 (beginning of operations) to December 31, 2022.

(1) This information is derived from the Fund's audited annual financial statements.

(2) Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of units outstanding over the financial period.

(3) Distributions were reinvested in additional units of the Fund.

Ratios and Supplemental Data

Portfolio Turnover Rate (%)⁽⁴⁾	24.98	27.39	27.05	14.46
Net Asset Value per Unit (\$)	9.90	9.45	8.04	7.10

*For the period from March 28, 2022 (beginning of operations) to December 31, 2022.

(1) This information is provided as at the last day of the accounting period shown.

(2) Management expense ratio is based on total expenses (excluding commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of daily average net asset value during the period.

(3) The trading expense ratio represents total commissions and other Fund transaction costs expressed as an annualized percentage of daily average net asset value during the period.

(4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio adviser manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

Addenda Global Diversified Equity Fund

Management Fees

The Fund pays annual management fees to the Fund manager for its management services. The fees are calculated based on a percentage of the Fund's daily net asset value before applicable taxes and are paid on a monthly basis. A portion of the management fees paid by the Fund covers maximum annual trailer fees and sales commissions paid to brokers. The remainder of the management fees primarily covers investment management and general administration services. The breakdown of major services provided in consideration of the management fees, expressed as an approximate percentage of the management fees is as follows:

	Management Fee (%)	Breakdown of Services	
		Investment Advisory and Other Fees (%)	Trailer Fee (%)
Series A	1.50	33.33	66.67
Series F	0.50	100.00	N/A

Past Performance

Performance data assumes that all distributions of each series of the Fund for the periods shown were reinvested in additional Fund units. However, it does not take into account purchases, redemptions, investments or other optional charges, and returns would be lower if it did.

The past performance of each series of the Fund is not necessarily indicative of future performance.

Annual Performance (%)

Series A (%)

Series F (%)

*Beginning of operations on March 28, 2022

These graphs present the annual performance of each series of the Fund for each fiscal year shown and illustrate the evolution of each series of the Fund from one year to the next. These graphs also indicate, in percentage terms, how the value of an investment made on the first day of each fiscal year would have evolved as of the last day of that fiscal year. The last column shows the total performance of each series of the Fund for the interim period. Returns may differ from one series to another for a number of reasons, including if the series was not issued and outstanding for the entire period under review and because of the different levels of management fees and expenses.

Annual Compound Returns (%)

	1 year	3 years	5 years	10 years*
Series A	12.48	14.50	N/A	8.97
Benchmark index	24.25	21.29	N/A	14.82

Series F	13.61	15.65	N/A	9.78
Benchmark index	24.25	21.29	N/A	14.82

*Or since inception.

Benchmark Index

Addenda Global Diversified Equity Fund benchmark composed of 40% S&P/TSX Composite Index, 30% S&P 500 (CAD), and 30% MSCI EAFE Net (CAD).

Comparison with the Index

A discussion of the Fund's relative performance in comparison to the index (or indices) can be found in the Results of Operations Section of this report.
